## 1. FOREWORD BY CEO

Performance information is key to effective management, including planning, budgeting, implementation, monitoring, and reporting. Performance information also facilitates effective accountability, enabling legislators, members of the public and other interested parties to track progress, identify the scope for improvement and better understand the issues involved.

Performance information is essential to focus the attention of the public and oversight bodies on whether SA Tourism is delivering value for money, by comparing its performance against their budgets and business plans, and to alert managers to areas where corrective action is required.

Therefore, the Revised Framework for the Evaluation of Implementation Programmes is critical as it outlines structures, systems, and processes required to evaluate implementation programmes within SA Tourism. The outcomes of the evaluations seek to ensure transparency in our performance and inculcate a culture of using evidence in decision-making processes through evaluating implementation programmes.

The Revised Framework for the Evaluation of Implementation Programmes and the Two-Year Evaluation Plan should be read in conjunction with South African Tourism's planning documents, namely the Five-Year Strategic Plan and Annual Performance Plans, as well as its Performance Information Management, Monitoring and Reporting Framework.

South African Tourism is committed to robust evaluation of its implementation programmes as it seeks to continuously improve its performance and service delivery to its beneficiaries.

## 2. EXECUTIVE SUMMARY

The Two-Year Evaluation Plan 2024 - 2026 outlines the implementation programmes that will be evaluated, between April 2024 and March 2026. The evaluation plan seeks to give effect to the Revised Framework for the Evaluation of Implementation Programmes. The implementation programmes that will be evaluated are linked to South African Tourism's strategic direction, articulated through the Five-Year Strategic Plan 2020 - 2025, and the year on year Annual Performance Plans. Results of all evaluations are used by the respective business units in the planning for the next financial year.

A new five-year evaluation plan will be developed once the Five-Year Strategic Plan 2025 - 2030 is approved. This five-year evaluation plan will commence in FY26/27, with the evaluation of the first Annual Performance Plan implementation programmes implemented in FY25/26, as the first year of the new five-year term. The evaluation plan will be presented to ExCo for noting and approved by the CEO.

An evaluation working group will be established to develop the five-year evaluation plan. The evaluation working group will include representatives from the following business units: SPEPM, Internal Audit, Office of CFO, Brand and Marketing, Global PR and Communications, Tourism Execution, National Convention Bureau and Tourism Grading Council of South Africa. South African Tourism adopts a hybrid approach to its evaluations as the working group comprises internal staff members and an external service provider that will undertake the evaluations in a bid to ensure objectivity of the evaluation process, its results and recommendations.

## 3. SA TOURISM'S EVALUATION FRAMEWORK

The Revised Framework for the Evaluation of Implementation Programmes allows South African Tourism to assess whether the identified implementation programmes have successfully delivered its intended outcomes and impacts as reflected in the implementation programmes plans. The benefits that have been derived from the identified implementation programmes and the link to the outcomes of SA Tourism will also be determined as well as presenting recommendations that can be used during future planning to improve the implementation programmes.

SA Tourism has a separate Performance Information Management, Monitoring and Reporting Framework, whilst the Revised Framework for the Evaluation of Implementation Programmes outlines how the evaluation of implementation programmes are undertaken.

Both frameworks are aligned to prevailing legislative and regulatory frameworks and guidelines.

## 4. PRIOR EVALUATIONS IN SA TOURISM

South African Tourism developed its first Framework for the Evaluation of Implementation Programmes in 2021. This framework was executed through a three-year plan, with the following evaluations concluded:

FY21/22	FY22/23	FY23/24
Number of domestic campaigns delivered in FY20/21	Number of regional (Africa) campaigns delivered in FY21/22	Number of international (overseas) campaigns delivered in FY22/23
Basic Quality Verification Programme executed in FY20/21	Business events hosted in FY21/22	B2B Brand Campaigns delivered in FY22/23
-	Mid-Term Assessment Report delivered in November 2022	-

The outcome of each of the above evaluations were shared with ExCo and the relevant business units to utilise in the preparation of the annual performance plans.

## 5. SOUTH AFRICAN TOURISM'S STRATEGIC DIRECTION

In an instance where the strategic direction, as outlined below, is amended, the amended strategic direction will be applicable to the Revised Framework for the Evaluation of Implementation Programmes and its implementation.
